

RATINGS FORMING PART OF WATCH ENGINE SECTION A – III/4

STANDARD OF COMPETENCE

- Every rating forming part of an engine-room watch on a seagoing ship shall be required to demonstrate the competence to perform the marine engineering function at the support level, as specified in column 1 of table A-III/4.
- The minimum knowledge, understanding and proficiency required of ratings forming part of an engine-room watch is listed in column 2 of table A-III/4.
- Every candidate for certification shall be required to provide evidence of having achieved the required standard of competence in accordance with the methods for demonstrating competence and the criteria for evaluating competence specified in columns 3 and 4 of table A-III/4. The reference to “practical test” in column 3 may include approved shore-based training in which the students undergo practical testing.
- Where there are no tables of competence for the support level with respect to certain functions, it remains the responsibility of the Administration to determine the appropriate training, assessment and certification requirements to be applied to personnel designated to perform those functions at the support level.

SEA SERVICE (Section A -V II/2. 3 – 3.3)

In accordance with the requirements of regulation VII/1, paragraph 1.3, every candidate for certification under the provisions of chapter VII at support level in functions specified in tables A-II/4 and A-III/4 shall have completed:

- (a) approved seagoing service including not less than 12 months experience, made up of:
 - (i) not less than 6 months associated with engine-room duties; or
- (b) special training, either pre-sea or on board ship, including an approved period of seagoing service which shall not be less than 4 months, made up of:
 - (i) not less than 2 months associated with engine-room duties;
- (c) the seagoing service, training and experience required by paragraph A I shall be carried out under the direct supervision of an appropriately qualified officer or rating.

UNDERSTANDING AND DEMONSTRATED SKILLS

- Basic training
- Personal survival
- Fire prevention and fire fighting
- Elementary first aid
- Personal safety and social responsibility

MEDICAL (In accordance with Section A I/9)

ELECTRO-TECHNICAL RATINGS SECTION A- III/7**STANDARD OF COMPETENCE** (In accordance with A III/7. 1-3)

- Every electro-technical rating serving on a seagoing ship powered by main propulsion machinery of 750 kW propulsion power or more shall be required to demonstrate the competence to perform the functions at the support level, as specified in column 1 of table A-III/7.
- The minimum knowledge, understanding and proficiency required of an electro-technical rating serving on a seagoing ship powered by main propulsion machinery of 750 kW propulsion power or more is listed in column 2 of table A-III/7.
- Every candidate for certification shall be required to provide evidence of having achieved the required standard of competence in accordance with the methods for demonstrating competence and the criteria for evaluating competence specified in columns 3 and 4 of table A-III/7.

UNDERSTANDING AND DEMONSTRATED SKILLS

- Basic Training
- Personal Survival
- Fire Prevention and Fire-Fighting
- Elementary First Aid
- Personal Safety and Social Responsibility
- Security Awareness Training

MEDICAL (In accordance with Section A I/9)
